I don't think we can do much. This a bad land use decision and the neighbors are trying to use air quality requirements to shut down the facility, but I'm not sure there is a violation of state or county regulations. I think this facility is basically unregulated until it's brought under the Ag BMP umbrella.

I have not had a chance to talk to Matt Salazar yet, so I don't know much from their end beyond what Joel has forwarded. Eugene tells me that this is not a title V source. So right now, I am not sure what kind of help we could provide on this.

I'm aware of this. ADEQ is creating an Ag BMP to cover this facility and deal with the air emissions. The facility is roasting manure and has purchased a baghouse to try and control air emissions. The community claims there are federal violations, but all I get are videos that show dust with no identifying information. Are the Air Enforcement people interested in looking into whether there are actual violations?

I think we already looked at this. Maybe we need to write a letter on this.

**Subject:** Complaint letter regarding environmental violations at Arizona egg operation

Please find the attached letter regarding concerns about federal environmental violations taking place at Arizona egg operations owned by Hickman Family Farms, etc.

Please have the EPA official or officials assigned to look into this case contact the undersigned as soon as possible to confirm receipt of this complaint and to set up a meeting with the organizations and citizens filing it.

EPA, Region 9's attention to this matter is appreciated.
